Total - 8 organizations, 52 individuals.	Butte General - Road people find it reasonable. Commissioners feel it is imperative that public be informed and consulted as various prescriptions are implemented or modified.	Butte General - For all roadless areas in Coeur d'Alene County we recommend no change to current management plans. All management plans should improve and emphasize control of noxious weeds and invasive species, allow for harvest and thinning of noxious weeds, dying or infected trees (support controlled burns); management and enforcement of travel plan needs to be emphasized. In Frank Church Wilderness oppose closure of strips.	N/A	N/A

Butte: Specific: The management area (#12) allowed for construction of the Big Horn 1000 trail when state funds became available. With the lack of agreement on larger Trail system, Butte County Commissioners and local Economic Development groups have been cooperating with the Lost River Ranger District of the Challis-Challis NF to develop a smaller trail system within this management area. Working should be changed to allow for cooperation between the NF and local officials to implement the original intent of the Big Horn Trail system on a more localized level. General - Need people find current management plan is reasonable. Comments that it is imperative that public be informed and created an action plan/strategy are implemented or modified.	OK	OK
